

Technica Limited is a multi-disciplined engineering design and project management Company operating within the gas, LNG, chemical and petrochemical sectors.

Technica's operations relate to the design and installation of mechanical, electrical and instrumentation systems for industrial purposes, using commercially available components and products.

Technica seeks excellence in every aspect of our business and is committed to minimising the environmental impacts of our operations, both in the office and on site.

To achieve this commitment we will:

- Strive to continuously improve our environmental performance and integrate recognised applicable best practice into our business operations.
- Reduce our consumption of resources and improve efficiency in the use of these resources.
- Manage waste generated from our business operations according to the principles of reduction, reuse and recycling.
- Manage our business operations to prevent pollution.
- Give due consideration to environmental issues in the design, supply and installation of equipment.
- Ensure environmental criteria are taken into account in the procurement of goods and services.
- Strive to prevent and minimise our contribution to pollution of land, air and water.
- Comply with all relevant legislation, regulations, approved codes of practice and other requirements on environmental matters relevant to our operations.
- Monitor and continually improve our environmental performance.
- Provide planned review of environmental policies and performance, and allocate resources for their effective direction and implementation.
- Set and monitor key objectives and targets of our environmental performance at least annually.
- Communicate internally and externally our environmental policy and performance on an annual basis, and encourage feedback.
- Provide training to ensure that all employees work within an environmentally aware culture.
- Regularly communicate our environmental performance to our employees and other significant stakeholders.

The Directors of Technica are ultimately responsible for the environmental policy and will annually monitor and review the above to ensure compliance. This statement represents our general position on environmental issues and the policies and practices we will apply in conducting our business. This Environmental Policy is accessible to all employees and to other interested parties on request.
